DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species I in Paper No. 6 is acknowledged. The traversal is on the ground(s) that a thorough search for the subject matter of the elected species would encompass a search for the subject matter of the remaining species and therefore the search and examination of the entire application could be made without serious burden. This is not found persuasive because due to the lack of an allowable generic claim linking all species, a further search for the remaining claimed multiple species would be necessary.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 4, 7, 8-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical

Art Unit: 2832

Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Schmid, et al.

Schmid discloses normally open series connected contacts 20 and 21.

5. Claims 2 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyata, et al..

Miyata discloses normally open contacts 16, a normally closed contact (any of 15), movable contacts 24, armature 25, and armature card-like member 28.

Allowable Subject Matter

6. Claims 3 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
